

Sports Ministry

CCF is a big fellowship and sometimes it may be difficult to feel a sense of belonging. Hanging out with and becoming more involved in a smaller Christian community like Sports Ministry helps members grow root in the CCF community much easier. Bonding with more members of the fellowship through a mutual interest in sports makes one feel more comfortable in sharing with one another and supporting each other in Christ. We have both experienced the community that Sports Ministry has provided us and would love to use our passions for both sports and God to continue to create a more comfortable environment for current and future members to develop a stronger relationship with God through CCF. We have noticed that both Christians and non-Christians enjoy sports as stress relief and for general enjoyment, but lack the time to coordinate events. We want to use Sports Ministry as a weekly hangout to firstly attract members of the fellowship who yearn a deeper relationship with God and want to have some fun doing so, and also to introduce curious non-Christians to our beliefs through something they enjoy. We hope to see Sports Ministry become a community that motivates members to grow deeper in Christ through the support of a close community that can encourage each other both spiritually and physically.
